

Israel and Judah Fall into the Trap

The prophets warned the people in detail what was going wrong. Jeremiah the weeping prophet knew the agony of trying to correct God's people from their errors. He identified that they were actually changing their God by the way they were thinking.

In chapter 37v31 of his prophecy God said he would reject his people if they could measure the heavens above and the depths of the earth below.

We have been taught and believe things as fact about the heavens and the earth contrary to what the scripture reveals about them. The people of Israel and Judah were exiled because they did the same.
